**Spread** 32" - 36"

**Spacing** 36"

**Bloom Color** Steel Blue

**Bloom time** Late Spring

**Deer Resistant** Yes

**USDA Hardiness Zone** 4 - 8

### **Description**

Amsonia is a low-maintenance drought-resistant native, with light blue flowers atop dark green thread leaf foliage. In late spring this flowering perennial will provide a blue color and soft texture to your garden. In the fall, the feathery green foliage will turn to a brilliant orange. Clumping growth habit will create a visual appeal without too much pruning or shaping. Does great in mass planting, border planting and overall landscaping, providing a splash of color and texture that will complement other flowers and foliage. Does great as a cut flower in floral arrangements. This plant thrives in average soil without much care, nor attention.
