**Deer resistant** Yes

**USDA Hardiness Zone** 5-9

**Other** broad, green leaves, pollinator friendly, drought tolerant

## **Description**

This Caryopteris is an easy to grow plant that prefers full sun and a well-draining soil. Colors won't fade in intense sunlight! Dense nectar-rich flower clusters are a welcome treat to late season pollinators. Shows beautiful green foliage in Spring and Summer, accented by blue flowers in late Summer and Fall. Features a mounded upright habit and broad leaves. Deer & rabbit resistant. Prune hard in early spring to promote fresh growth. Blooms on new wood.
