Description

A beautiful groundcover for sunny, dry areas. Fine-textured yellow flowers cover dark green leaves and red stems with a beautiful habit. Blooms a little later than standard summer flowering Stonecrop to extend the season of your garden. These low-spreading sedums form a solid mat of foliage which is excellent for covering slopes or they can be planted as a groundcover in sunny, dry areas. They are extremely drought tolerant and many are evergreen. Yellow Brick Road' attracts pollinators such as bees and butterflies to the garden. These are terrific low-maintenance plants that always look their best.
